Kit Assembly

Step by Step

Step 1.

Assemble the banner pole.

Step 2.

Secure the assembled banner pole in base pole pocket.

Step 3.

Gently raise the graphic by the rail. Do not over extend the graphic, the cartridge may lose tension. If you hear the tension spring unwind, simply reference step 11 for re-tensioning.

Step 4.

Gently pull up the rail and attach to top of pole.

Graphic to Rail Attachment

Step 5.

Remove the backing from the adhesive on the rail.

Align graphic to rail.

Step 6.

Apply graphic evenly across the rail.

Kit Assembly

Step by Step Graphic to Base Attachment

Step 7.

Extend the white leader strip from the base cartridge.

Step 8.

Line the bottom of the graphic print to the adhesive tape on the white leader strip so the image faces onto it. Remove film from adhesive tape. Once aligned, apply pressure to graphic to adhere to tape.

Step 9.

Remove the pin to retract the graphic. Pin shape may vary.

Step 10.

Slowly retract graphic print into the base. Do not over extend it. If you hear the tension spring unwind, simply reference step 11 for re-tensioning.

Tensioning Graphic

Step 11.

To re-tension, do 1 full revolution (12 clicks). Check after each revolution until desired tension is achieved.

Step 12.

Peel the feet pads off the release paper and apply them on the bottom face of the base. Shape and size may vary.
